- I. It having been administratively determined not to permit dependents, automobiles, or household effects at Project Aquatone forward bases of operations, it is recommended that formal authorization be granted to pay the cost of movement and storage of Household and Personal Effects and Automobiles of USAF and Agency personnel assigned to Project Aquatone forward bases of operations.
- II. In view of the fact that the duration of assignment of each individual is roughly 18 months, a considerable amount of personal effects should be required at the forward post of assignment. Agency regulation, [REDACTED] limits the amount of air freight or excess baggage to 100 pounds and further states that 300 pounds of personal effects is the maximum amount that may be moved. The Project has determined, after due consideration and consultation, to permit an individual to have a maximum of 500 pounds of personal effects in his possession. It is recommended that a waiver be granted to the regulation cited, which would permit moving the remaining 400 pounds (a total of 500 pounds each) by excess baggage or air freight.
- III. Authorization has been and will continue to be granted USAF and Agency personnel to store household and personal effects and automobiles in the ZI at Agency expense. Such authorization includes the cost of movement of said effects and automobiles to a place of the employee's own selection within the ZI, the storage of such effects and automobiles for the duration of the employee's assignment and upon completion of each employee's assignment, pay the cost of movement of such effects and automobiles to the point from which moved, or to the employee's next point of assignment.

- 2 -

- A. The amount authorized for the storage of automobiles will be limited to sixteen dollars (\$16.00) per month plus an initial fee of five dollars (\$5.00) for blocking the wheels. Payment for cost of movement and storage of automobiles will be limited to one automobile for each affected employee.
- B. Effects and automobiles will be stored by the individual who shall pay the movement and storage costs and claim reimbursement, the claim being supported by evidence of payment of the movement and storage charges.
